

September 2022

SIXTH FORM BULLETIN

WESTFIELD
ACADEMY

believe | strive | achieve

This year, we have welcomed 109 students into year 12 including a number of students from other schools who have chosen to apply to us for Sixth Form. We also have students travelling from far and wide to be part of our successful Football Academy. We have the largest number of students in our Sixth Form this year, that we have ever had and for the first time ever, we had to close our applications early as we were full.

September has been a busy month with several events taking place. We have had the army in for a day of challenges which saw the students having to work together in teams, communicating to solve problems. We also had a company called Talk the Talk in to look at effective communication with our year 13 students. John Aluma, our Football Academy coach and Ms Rafter, Head of Science have also presented to the students, talking about their journey from Sixth Form through to their current careers. We have lots more planned for the coming months

Over the summer the Sixth Form areas were refurbished. We have created two areas, with new furniture being installed in each. We have an area purely for silent study as well as a separate space which offers comfortable space for group work as well as a place to relax at break and lunch time. Whilst students need to be working during their study periods, the more relaxed space offers a place to meet with friends during a free period.

Some dates for your diary:

- 20th October - NHS Careers Exhibition at Watford Football Club (year 12 & 13)
- 21st October—Year 13 photographs

ENRICHMENT

As part of their year 12 enrichment, some of our students worked hard to create an eye catching display in the Science corridor.
